-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Specification

1. Claims 1-2 objected to because of the following informalities: A claim should be in one sentence form. If there are more limitations than one in a claim they should be properly separated with semicolons (;) and the claim should end with a period (.).

Appropriate correction is required.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claim 2 rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

It is unclear what is being claimed. The preamble indicates a method whereas the claim depends from an apparatus. In a utility claim either an apparatus or a method must be claimed.

4. The claims are generally narrative and indefinite, failing to conform with current U.S. practice. They appear to be a literal translation into English from a foreign document and are replete with grammatical and idiomatic errors.

Claim Rejections - 35 USC § 103

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and

Art Unit: 3711

the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claims 1-2 rejected under 35 U.S.C. 103(a) as being unpatentable over Murphy (5137279) in view of Delgado (4299390).

Murphy teaches a board with perimeter spaces (12) capable of having outcomes interpreted as being favorable, unfavorable or neutral, having four quadrants (Fig.2), quadrants listed with states (14), numerals (17) that could be interpreted as electoral votes or popular votes, dice (15), playing pieces (Fig.6-8), money (Fig.9).

Murphy teaches all limitations except that it does not teach vote markers.

Delgado teaches scoring markers (5:30-35).

In order to play a game and determine a winner it is common practice in game arts to maintain proper record of scores, in that it would have been obvious to use score markers. One of ordinary skill in art at the time the invention was made would have suggested providing score markers to maintain proper recording of scores.

Applicant may note that rules for playing as in dependent claim 2, do not further limit the apparatus as claimed.
